

## The Future of Operator Connect for Microsoft Teams

In the ever-evolving landscape of technology, particularly in the world of communications, maintaining a leading position is paramount to ongoing success.

That's why CallTower is thrilled to introduce GTx, our revolutionary new platform tailored for Managed Service Providers (MSPs), System Integrators, Resellers, Distributors, and VARs, empowering them with [Operator Connect for Microsoft Teams](#). GTx isn't just a new portal; it's a whole new approach and a complete reimaging of how technological transactions are performed.

## Elevate Your Operator Connect Services

GTx transforms the interaction between MSPs and others with Operator Connect for Microsoft Teams, providing a seamless, effective, and innovative transaction platform. It's crafted to empower MSPs to elevate their services, streamline operations, and unlock unprecedented growth possibilities in the unified communications domain.

GTx also enables MSPs to sell, implement and provide Day 2 services with Operator Connect, all powered by CallTower.

# Features Designed to Propel Success

## Unified Transactions

Experience the ease of on boarding your customers to Operator Connect with a single, intuitive interface. From provisioning to management, every aspect is simplified.

## Instant Updates & Insights

Gain immediate access to porting, setting up your clients and the latest features, updates, and offerings in Operator Connect for Microsoft Teams.

## Customized Offerings

Adapt and tailor your services to meet the specific needs of your clients, enhancing satisfaction and loyalty.

## Dedicated Expertise

Benefit from the support and insights of CallTower's seasoned Rebiller Partner Managers, dedicated to helping you maximize the potential of GTx and Operator Connect.

## Empowerment Through Innovation

GTx is more than just a portal; it's a powerful approach to equipping our partners with the tools, resources, and assistance necessary to thrive in today's rapidly evolving technological sphere and enhance their clients' Microsoft Teams Operator Connect journey.
