

KEY BUSINESSES INTEGRATIONS

Comparison Matrix
for CallTower's UC Solutions

CallTower provides UCaaS solutions that are designed to help organizations stay connected and stay ahead in today's fast-paced business environment. One of the key features of CallTower's UCaaS solutions is their ability to seamlessly integrate with a wide range of other business tools, including contact center solutions, E911 and emergency notification systems, failover options, SMS text messaging, and a variety of devices – all available on CallTower's international voice-optimized network.

The integration of contact center solutions is essential for businesses that want to provide exceptional customer service. CallTower's UCaaS solutions seamlessly integrate with a variety of contact center solutions, allowing businesses to manage all aspects of their communication in one place. This integration enables organizations to streamline communication channels and improve customer service, ultimately leading to increased customer satisfaction and loyalty.

E911 and emergency notification systems are crucial for any organization, particularly those that operate in high-risk environments. CallTower's UCaaS solutions integrate with E911 and emergency notification systems, ensuring that employees and customers can quickly and easily contact emergency services when needed. These integrations provide added peace of mind and security for businesses and their employees.

Failover options are an essential feature for businesses that rely heavily on communication tools. CallTower's UCaaS solutions offer one-click failover options, enabling businesses to switch to a backup system quickly and easily in the event of an outage or other issue. This feature ensures that businesses can continue to operate smoothly, even in the face of technical difficulties.

Finally, CallTower's UCaaS solutions are available on a variety of international systems, making it easy for businesses to stay connected no matter where they are located. With 70+ countries and over 6000 cities available through 45 carriers and internet peering partners, CallTower's UCaaS solutions are truly global. This international availability ensures that businesses can operate seamlessly, regardless of their location
