

**DYNAMIC AND FLEXIBLE COMMUNICATION SOLUTIONS WITH SCALABILITY
FOR TODAY'S GROWING BUSINESS NEEDS**

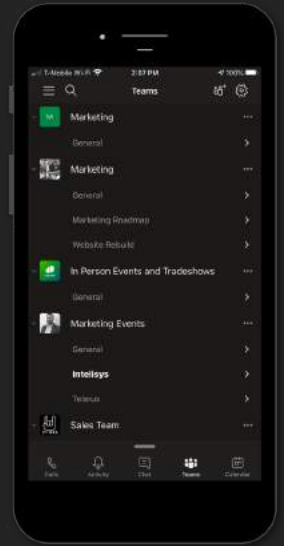

STAY CONNECTED. STAY AHEAD.

CALLTOWER'S MICROSOFT TEAMS CALLING PLANS

CallTower delivers an integrated Office 365 Microsoft Teams experience with global calling plans empowered by client services team, ensuring a personalized implementation, adoption, training and support strategy.

CallTower has been voice enabling Microsoft solutions for years. As a Microsoft Gold Partner providing cloud voice solutions, our monitoring and management services ensure the highest quality user experience. Globally, CallTower is one of few organizations certified to provide voice with Microsoft Teams.

The Microsoft Teams Phone System powered by CallTower enables customers to bring their current voice services into the Microsoft Cloud through Direct Routing. Direct Routing ensures the ability to leverage CallTower's preferred rates and unlocks the full potential of a Microsoft Teams Phone System.

CALLTOWER DIRECT ROUTING

STAY CONNECTED

Chat, text, calls and meetings within your team, in private or small group conversations + guest access to extend collaboration.

INTEGRATED APPS

Expose your team to all applications that are part of the O365 software stack from within Teams

SEAMLESS PORTING

Port between any PBX to CallTower's Teams Direct Routing.

CHANGE MANAGEMENT

Guidance with deployment, resource planning, technical readiness, live training and adoption to ensure success.

MICROSOFT TEAMS CONTACT CENTER INTEGRATION.

CallTower delivers a seamless suite of fully integrated Microsoft Teams UCaaS and CCaaS solutions that are easy to deploy, easy to use, and can support our customers' transition to the cloud.

COMMUNICATE FROM ANYWHERE AT ANYTIME!

The landscape of business is changing rapidly. The importance of completely supported Microsoft Teams Contact Center integration with UCaaS and Collaboration solutions for full communication enablement are vital to business success.

According to Aberdeen's 2020 Contact Center survey conducted in June 2020 (well after the initial stages of COVID) remote work adoptions have reached 51% — Indicating an almost triple the increase within just one year. Aberdeen's 2019 Contact Center survey showed that only 14% of businesses had remote work capabilities in place in 2019.

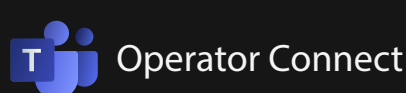

CallTower delivers a seamless suite of fully integrated UCaaS and CCaaS solutions that are easy to deploy, easy to use, and can support our customers' transition to the cloud.

NATIVE OFFICE 365 MICROSOFT TEAMS EXPERIENCE!

CallTower delivers a Native Microsoft Teams Direct Routing + Contact Center options to meet the needs of your business.

CallTower was the first solution provider to deliver a Native Office 365 Microsoft Teams experience with global calling plans empowered by a 24/7/365 client services team. This solution ensures a personalized implementation, adoption, training and support strategy. As a Microsoft Gold Partner, CallTower's monitoring and management services provide the highest quality user experience. The Microsoft Phone System powered by CallTower enables customers to bring their current voice services into the Microsoft Cloud through Teams Direct Routing. CallTower delivers features addressing missing key Microsoft Teams UCaaS feature gaps and functionality that is not available through other providers. With CallTower, Teams Direct Routing customers can also easily redirect calls in case of a Microsoft outage to an alternative number and stay connected.

OPERATOR CONNECT FOR MICROSOFT TEAMS.

Operator Connect delivers PSTN access to Microsoft Teams users, to deliver an enhanced customer experience.

Operator Connect allows Microsoft Teams administrators to open the "Operators" tab in the Teams admin center to connect calling services, acquire phone numbers, and assign users. Operators, such as CallTower, will provide technical support and manage the voice network and infrastructure. Operators can also enable PSTN voice services in regions currently unavailable through Microsoft Calling Plans. Implementation of voice services can be online in a matter of hours.

OPERATOR CONNECT BENEFITS

LEVERAGE EXISTING CONTRACTS OR FIND A NEW OPERATOR

You keep your preferred operator and contracts or choose a new one from a selection of participating operators to meet your business needs

ENHANCED SUPPORT AND RELIABILITY

Operators provide technical support and shared service level agreements to improve support service, while direct peering powered by Azure creates a one-to-one network connection for enhanced reliability.

FASTER, EASIER DEPLOYMENT

You can quickly connect to your operator and assign phone numbers to users — all from the Teams Admin Center.

OPERATOR-MANAGED INFRASTRUCTURE

Your operator manages the PSTN calling services and Session Border Controllers (SBCs), allowing you to save on hardware purchase and management.

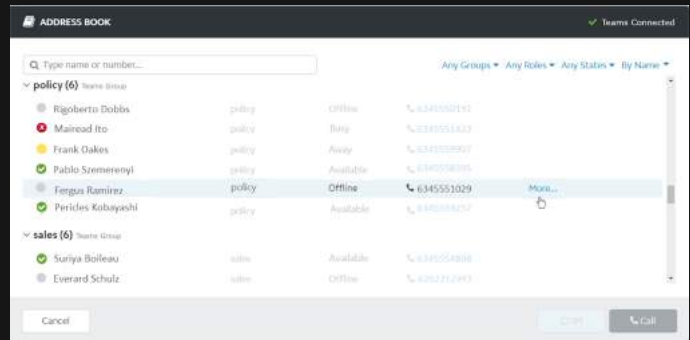

BLENDING CLOUD CONTACT CENTER

TEAMS CCAAS INTEGRATION

The Five9 UC Integration with Teams enables Agent-Expert Consultation by connecting Five9 agents with Teams users throughout the organization.

Contact center agents can easily identify the right knowledge workers and subject matter experts using a Five9-Teams consolidated directory on their desktop.

Using Agent-Expert Consultation, agents have an “at-a-glance” directory on their desktop with presence status showing whether the Teams user is available, busy, away, etc. Teams users are identified by department, allowing agents to quickly find an expert to help them. Once the right expert is identified, the agent can talk with them one on one, conference them with the customer, or transfer the call. Regardless of how the call is handled, the goal is to resolve the customer’s issue the first time, every time.

SUPERIOR CUSTOMER CARE

TEAMS CCAAS OVERLAY

Customers expect their calls to be answered quickly and their issues to be resolved promptly. Whether your contact center has a few or even hundreds of agents, meeting this demand requires specialized software.

CT Cloud Contact Center empowers customers with a full-featured, powerful and complete end-to-end cloud contact center solution. Customers can expect their calls to be answered quickly and their issues to be resolved promptly. Whether your contact center has a few or even hundreds of agents, meeting this demand requires specialized software.

SUPERIOR AUDIO AND VIDEO PERFORMANCE

Range of HD and wide-angle cameras ideal for any size conference room with two or 20 participants.

CallTower enables our Customers to manage rapidly-changing technologies through CallTower Connect - a user friendly portal, created and developed in-house. This proprietary system ensures our Customers have the ability to administer services without expertise in any one technology or hiring outside consultants to manage their UCaaS platforms.

Connect seamlessly integrates with our robust Microsoft, Cisco and CT Cloud solutions. This integration allows our customers to easily manage their solutions without expertise in programs like PowerShell, CUCM and others.

CT Cloud Unite provides integration to an unprecedented range of business and contact-oriented applications, offering a standard set of integration features with a huge range of popular cross-vertical and vertical-specific applications.

- Improves the quality and professionalism of your call handling and the caller's experience
- Increase the productivity and collaboration of your phone system's users
- Reduce the time and costs involved with making and receiving large volumes of calls
- Realize the full potential of your hosted telephony solution

The process of evaluating all business practices and customer service levels to ensure that customers are receiving the best quality experience is crucial. Evaluating agent performance and enforcing defined quality standards for interactions are key to this effort.

With CT Cloud Recording you are able to identify customer needs and expectations, and identify training needs for your team.

In a UCaaS environment, there are many occasions that recording is of great value or simply required. With CT Cloud Recording you are able to record calls on-demand, or automatically from a single platform.
