

Voice-Enabling Microsoft Teams with CallTower

What is Voice-Enabled Microsoft Teams?

Voice-enabling [Microsoft Teams](#) adds high-quality phone capabilities directly into your Microsoft Teams environment. It transforms Teams from a chat and meeting tool into a full communication powerhouse that connects everyone, anywhere, on any device.

Key Functionality with CallTower's Voice-Enabled Teams

1

Direct Calling

Make and receive external calls from your Teams app with just a click. No need for separate phone systems.

2

Global Coverage

Connect seamlessly across the U.S., Europe, and beyond, leveraging CallTower's reliable [global network](#).

3

Enhanced Communication Tools

From auto-attendants to call queues, CallTower equips Teams with advanced call handling and [routing options](#).

4

Flexible Call Routing

Direct incoming calls to the right person or department instantly, improving customer experience and response times.

5

Easy Management

Our intuitive [CallTower Connect](#) portal lets you manage users, numbers, and settings all in one place.

ROI Benefits for Your Business:

Cost Savings

Reduce the need for separate phone systems and infrastructure costs. CallTower's voice solution consolidates communication in one unified platform.

Boosted Productivity

Eliminate the need to switch between platforms – everything is in one place, making workflows smoother and collaboration faster.

Reliable and Scalable

CallTower's voice-enabled Teams solution scales as you grow and provides built-in disaster recovery, so your business stays connected even when the unexpected happens.

Improved Customer Experience

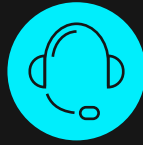

With direct calling and better call handling, customer interactions are streamlined, leading to faster, more effective communication.
