

Webex or Zoom?

In this challenging time, many customers are looking to online meeting services as a way to connect with co-workers, customers, and partners while working remotely.

Webex is the #1

market share leader for

collaboration

meetings

calling

video

We serve over **300,000** collaboration customers, **200 Million** monthly users and over **125 Billion** meeting minutes annually.

Webex is the most **secure**, most **flexible** and most **scalable** solution on the market.

WE PROVIDE

True end-to-end encryption

An independent trust

Strong privacy controls

Security team

to ensure that your communications are **ALWAYS SECURE.**

We also provide the only **truly integrated, purpose-built collaboration platform that is 100% Cisco** – from our **Global Collaboration Cloud** spanning 23 data centers worldwide, to our award-winning video endpoints.

Zoom has received a lot of press lately and many organizations today are looking at Zoom as a solution for remote meetings. But **Zoom is not Webex**. Zoom is a platform pieced together from multiple vendors to make it work.

Furthermore, Zoom has been plagued by security and privacy challenges, including warnings from Congress and even from the FBI.
