

Enhance Your Communication with Operator Connect for Microsoft Teams

Operator Connect's groundbreaking communication tool brings more flexibility and personalization to your Teams experience.

New for MSPs: CallTower's GTx Rebiller Program to empower partners with new and enhanced growth opportunities! [Read more at the bottom of this document.](#)

Efficient Call Management

With Operator Connect, you can personalize your call routing system and manage your calls more efficiently. You can choose where to route calls and even delegate specific numbers to certain employees

Easy Call Set-Up

Call set-up is a breeze with Operator Connect. With just a few clicks, you can configure your call routing preferences and ensure that your calls reach the right people.

Increased Flexibility and Customization

Features	Benefit
Customizable ID	You can customize your Caller ID by assigning it a local or toll-free area code which helps to enhance trust and professionalism.
Integrates with Teams	Operator Connect ensures a seamless integration process with Teams. It has a user-friendly interface that enables efficient communication, even for non-expert users.
Auto-Attendant	You can use the auto-attendant feature to automate your calls and provide your customers with speedy, efficient service 24/7.

Enhanced Management Features

Advanced Call Transfer

With Operator Connect, you can streamline call transfer management by assigning specific roles to various team members, allowing for more efficient call routing.

Real-Time Monitoring

Monitor your employees' call activity to ensure that all calls are being managed efficiently and provide real-time feedback.

Operator Connect Benefits

Leverage Existing Contracts or Find a New Operator

You keep your preferred operator and contracts or choose a new one from a selection of participating operators to meet your business needs.

Enhanced Support and Reliability

Operators provide technical support and shared service level agreements to improve support service, while direct peering powered by Azure creates a one-to-one network connection for enhanced reliability.

Faster, Easier Deployment

You can quickly connect to your operator and assign phone numbers to users - all from the Teams Admin Center.

Operator-Managed Infrastructure

Your operator manages the PSTN calling services and Session Border Controllers (SBCs), allowing you to save on hardware purchase and management.

CallTower's Microsoft Teams Operator Connect solution is now available in **EMEA regions**
