

Bill on Behalf Partner Program

Streamline Your Revenue, Own Your Customer Relationship

At CallTower, we believe in empowering our partners with flexibility and control. **Our Bill on Behalf Partner Program is designed for partners who want to maintain a direct billing relationship with their customers while leveraging CallTower's robust infrastructure and billing engine.**

This program allows you to present a unified brand experience, simplify administrative overhead, and focus on what you do best...delivering exceptional solutions to your customers.

Why Choose the Bill on Behalf Partner Program?

Simplify Your Operations

Eliminate the complexity of telecom taxation and regulatory compliance.

CallTower handles the heavy lifting of tax calculation and remittance, allowing you to bill your customers directly without the administrative burden of managing complex tax tables.

Enhance the Customer Experience

Your customers see one bill - from you. By consolidating services under your own invoice, you strengthen your brand presence and provide a seamless, single-point-of-contact experience for your customers.

Add to Your Service Offerings

Expand your solutions by bundling CallTower's market-leading UCaaS and CCaaS services with your own professional offerings - all presented to your customers on a single, consolidated invoice.

Program Features

White-Label Capabilities

Maintain your brand identity with invoices that look and feel like your own.

Regulatory Compliance Managed

We handle the calculation and remittance of federal, state, and local taxes and fees on the underlying services.

Flexible Bundling

Easily combine CallTower’s Microsoft Teams, Webex, and Zoom solutions with your unique service offerings, and present everything to your customers on a single, joint bill.

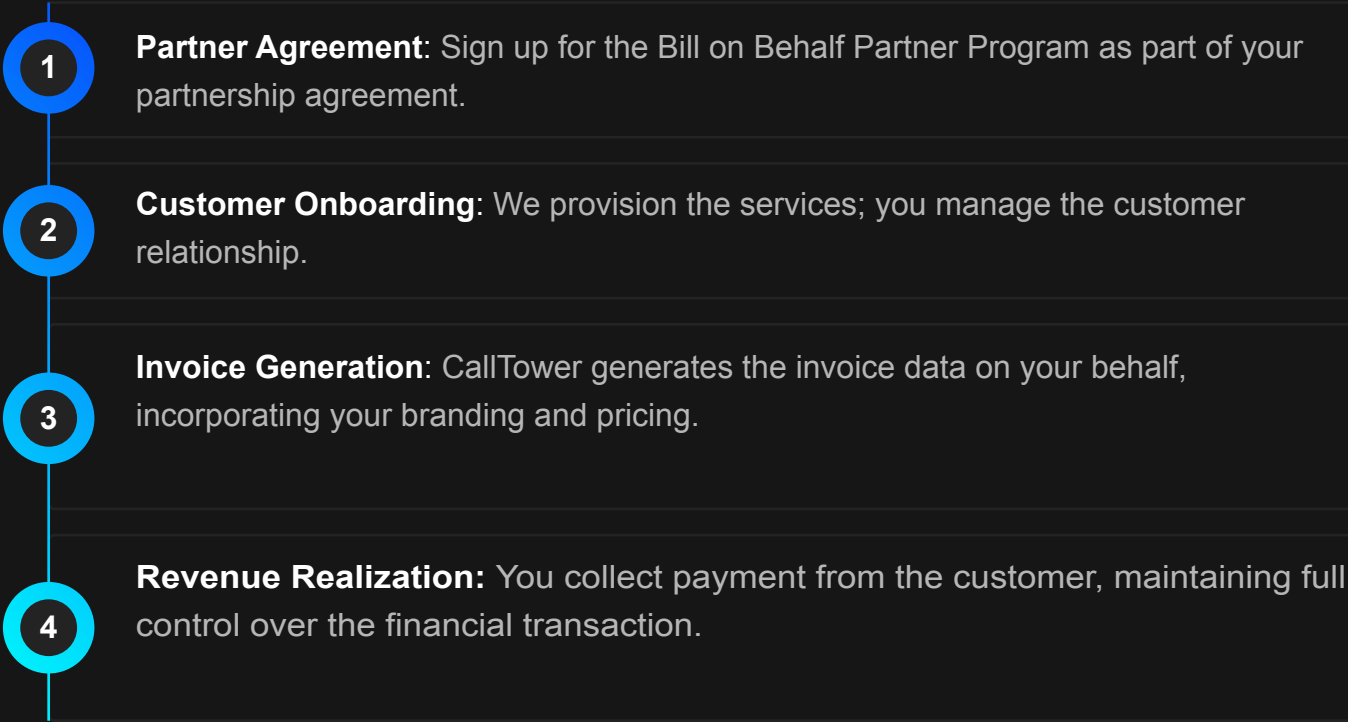

Automated Back End

Leverage our powerful billing engine to generate accurate, timely invoices for your customers.

Dedicated Support

Access a specialized support team dedicated to ensuring your billing operations run smoothly.

How it Works
