

Stay Connected. Stay Ahead.

CallTower delivers the world's most advanced cloud communication solutions

Consolidating to a Single Cloud Voice Provider - The Last Port You'll Ever

Separate Providers Yield Exposure to:

- Higher Cost and Contracting Complexity
- Greater Administrative Burden
- Multiple Service and Support Teams
- Business Continuity Risks
- Greater Friction in CX and EX

Why CallTower for PE Backed Firms?

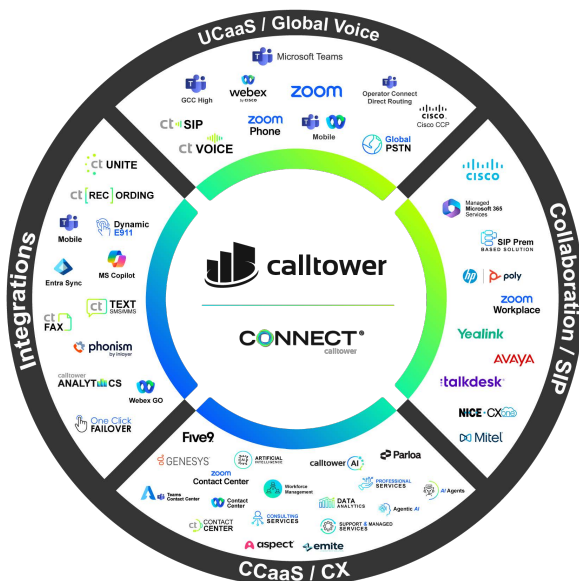

Every Organization Requires Voice Connectivity. CallTower's Best-In-Class Solutions and Services Can Empower Your Portfolio Companies To:

Reduce Cost, Risk, and Complexity

- Streamline and futureproof all voice and collaboration tools under a single pane of glass
- Drive down communications costs through preferred pricing agreements and elimination of redundant spend
- Rely on a single white-glove team for implementation, 24/7/365 support, training, and customer success
- Strengthen business continuity, security & compliance

Integrate & Enable

- Enable seamless communications across distributed, multi-site, and remote workforce environments
- Support international expansion with proven capabilities in 70+ countries
- Facilitate M&A integration and platform rationalization with provider-agnostic solutions
- Extend communications workflows by connecting via API to critical business tools

58%
CallTower Saves
Frontline **58%**
over 3-years

"Since adopting CallTower's Microsoft Teams solution in early 2023, we've streamlined communication and reduced our telephony expenses by 58% (from \$32K to just \$14K per month)."

CallTower has been pivotal in this journey, providing custom solutions for our Microsoft CSMs and enabling our India-based employees with US phone numbers. With a 3-year contract in place, we're set for continued efficiency and savings."
