

CallTower Differentiators

Value Added Resellers (VARs)

Best-In-Class Services

CallTower is a certified Connected PSTN provider for both Cisco and Microsoft, offering seamless integration with their platforms. Our solutions are purpose-built to deliver enterprise-grade cloud-based SIP trunking, Cloud PBX, and Contact Center Services. This ensures businesses can achieve reliable, scalable, and high-quality communication solutions tailored to their needs.

What This Means for Value Added Resellers (VARs):

This certification and purpose-built approach mean you can confidently offer CallTower's services to your customers, knowing they meet the highest standards set by Cisco and Microsoft.

- 1. Certified Excellence:** Vetted by Cisco and Microsoft for reliable platform compatibility.
- 2. Enterprise-Grade Solutions:** Scalable SIP trunking and cloud-based communication with key business integrations designed to meet the needs of modern businesses.
- 3. Competitive Edge:** Seamless integration with Cisco and Microsoft platforms.
- 4. Revenue Opportunities:** Net new logo, upsell and cross-sell to drive customer value and growth.

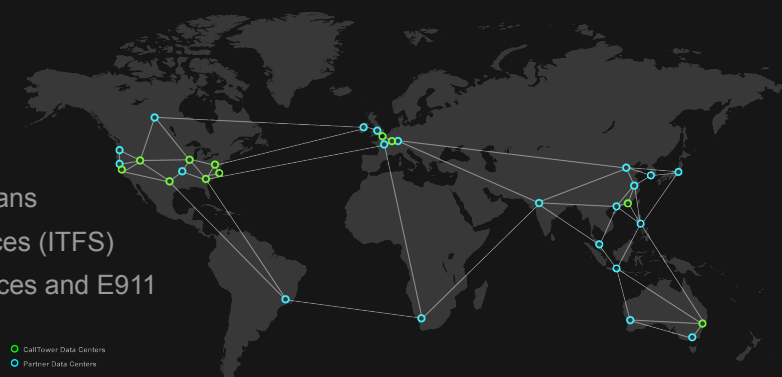

CallTower's certifications and purpose-built solutions empower you to deliver trusted, high-quality communication services that meet the evolving needs of modern businesses.
